

Use VoIP Phone Service

How to config Callwithus on Ecsow Dialer

Step 1, Getting the CallWithUs SIP Information.

Login your callwithus account and click the "VoIP Accounts" link to get your SIP account information.

You can create additional VOIP accounts if you need to connect more than one SIP client to our server. (

Step 2, Fill in SIP Account on Ecsow Dialer.

Use VoIP Phone Service

The image shows a screenshot of a software window titled "Options" with a close button (X) in the top right corner. The window has a tabbed interface with the following tabs: "General", "SIP Account", "Do-Not-Call", "Voice Activity Detection", "Call Distribution", "Call Transfer", and "Preset". The "SIP Account" tab is currently selected. The main content area is divided into three sections:

- Account information from your SIP VoIP service provider:** This section contains five input fields:
 - Display Name: Call Plan A
 - SIP ID/User Name: 940420726
 - Domain: sip.callwithus.com
 - Authorization User: 940420726
 - Password: A field with 10 dots, indicating a masked password.
- Outbound Proxy:** This section has the label "Send outbound calls via:" and two radio buttons:
 - Domain
 - Proxy
- Concurrent Calls:** This section has a label "Number of concurrent calls" and a text input field containing the number "1". Below this field is a note: "* SIP service must support multiple channels if you want to run concurrent calls".

At the bottom of the main content area, there is a grey button labeled "Advanced Settings". At the very bottom of the window, there are two buttons: "OK" and "Cancel".

Click the OK button to apply the settings.
