

Import and Export List

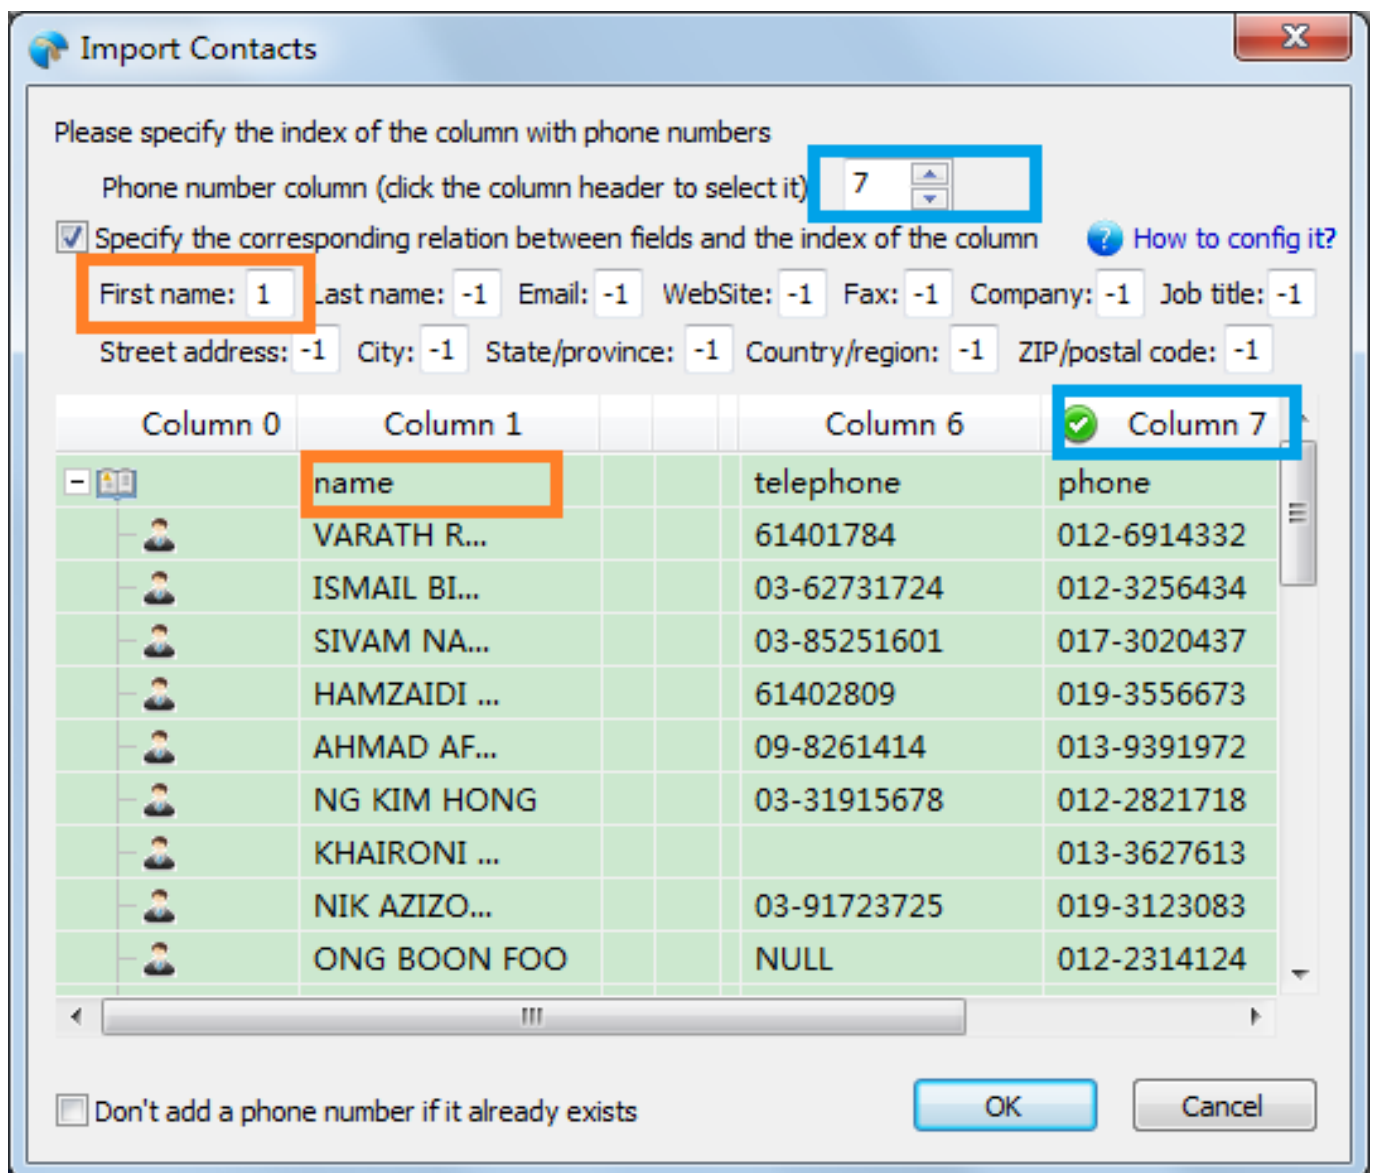

Importing from a CSV file

Before you import a call list, you will need a .csv file. If you don't know how to create the CSV (Comma delimited) file, please see [How to export Excel data to CSV files in Excel?](#)

- 1, Open Predictive Dialer.
- 2, Click the menu Import > Import CSV file

- 3, You will need to specify which of your columns from your call list will be placed on Predictive Dialer's "Name" and "Phone Number" columns.
